Spices

Using a mix of 20 organic spices on vegetable dishes like cinnamon, oregano, mint, etc. that have many fantastic health benefits individually may multiply their benefits when used together, as well as being delicious. Cinnamon, ginger, mint & cocoa are often favored on desserts and cereal grain dishes and can often help moderate blood sugar rise & prevent type II diabetes, heart disease or cancer.

Cinnamon

With as little as half a teaspoon daily, cinnamon (ceylon appears safer than cassia) appears to help neurological diseases like dementia, Parkinson's, Alzheimers with its anti-inflammatory, antidiabetic, anticancer, antiplaque, antifungal, antiparasitic, **antidiarrheal** & anticardiovascular disease properties of its cinnamaldehyde, cinnamic acid, cinnamate, procyanidins, eugenol, quercetin, kaempferol and catechin.
